Dear Judith:

As a followup to our EPA-Trustee conference call of 8/11/10, I am forwarding to you a letter from Bob Haddad, Chief of the Assessment and Restoration Division regarding federal trustee recommendations on Phase 2. Specifically, we recommend that EPA should apply the River Section (RS) 1 criteria to RS2 and RS3. The letter contains the technical basis for this recommendation, as well as information that EPA asked the trustees for during that call. We look forward to discussing this adjustment with your technical staff on September 10 and with you on September 21, 2010.

In the meantime, if you have any questions or comments on this, please don't hesitate to contact either Bob or me.

Regards and hope all is well with you,
Tom
NOAA Office of Response and Restoration
